health

**EO-based  
of mercury**

**surveillance  
pollution**

developing of a knowledge hub to support  
decision-making processes through user-friendly tools

EuroGEOSS Showcases: Applications Powered by Europe

The e-shape project has received funding from the European Union's  
Horizon 2020 research and innovation programme under grant agreement 820852

develop new web services to  
report information, assess  
scenarios, evaluate  
population risk, and estimate  
pollution reduction costs

link ERA-PLANET's  
iGOSP and iCUPE

DATA CATALOGUE

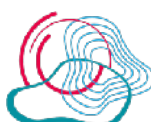

THESAURUS

KNOWLEDGE HUB

translate EO datasets  
into knowledge and  
actions

support the effectiveness  
evaluation of the Minamata  
Convention on Mercury
